

What is the Internet?

The Internet is a huge collection of computers around the world.

These computers are all linked together, and they can "talk" to each other, sharing information.

If your computer is connected to the Internet, it can connect to millions of other computers, in many different parts of the world.

What can you do on the Internet?

*** You can send electronic letters(e-mail) to people.**

*** You can read pages on the World Wide Web.**

*** You can play games with people on the other side of the world.**

*** You can chat to people.**

*** You can even buy things on the Internet and have them delivered to your house!**

What is the World Wide Web?

The World Wide Web is a part of the Internet.

It is a collection of **millions of pages of information**. This information can be about anything:

The pages are linked together using **Hyperlinks**. Remember these three rules:

A hyperlink is usually coloured in blue and underlined

(although they can be lots of different colours sometimes!)

If you move your mouse over a hyperlink, it will change to the shape of a hand, like this... 

If you click on a hyperlink, you will go to a different page.

Welcome to the "Web Browsers" section.

Before you start, read the questions and their answers below:

- * Web Browsers
- * Features of Web Browsers
- * Favourites / Bookmarks

What is a Web Browser?

A web browser is the software which you use to look at web pages.

There are lots of different web browsers, but the two most popular ones are...

and

Which web browser are you using?

Look at the blue bar at the top-left of your screen. Does it look like this....?

(If it looks similar to this, you are using Microsoft Internet Explorer) or like this?

(If it looks similar to this, you are using Firefox)

What is the address bar?

One of the most important parts of your browser is the address bar. This is what it looks like...

Every web page on the Internet has its own address. For example, the address of the NFIFWI web-site is <http://www.nfifwi.com>

If you type an address into the address bar (and then press ENTER), you will be taken to that page.

How to Create EMAIL ADDRESS.

You Can Create Free Email address either at Gmail or at Yahoo.

GMAIL.COM Address: <http://www.gmail.com>

YAHOO.COM Address: <http://www.yahoo.com>

Creating Email address in GMAIL(Google Mail)

 A screenshot of the Gmail sign-in page. It features the text "Sign in to Gmail with your Google Account" at the top. Below this are input fields for "Username:" and "Password:". There is a checkbox labeled "Remember me on this computer." and a "Sign in" button. At the bottom of the sign-in box is a link that says "I cannot access my account".	<p>Click "Create an account " Link to register.</p>
 A screenshot of the "Create an account" button on the Gmail page. The text above the button says "Now everyone can use Gmail." The button itself is labeled "Create an account »". Below the button are two links: "About Gmail" and "New features!".	<p>Please follow the instruction for creating email address in "Create an Account" Page.</p>
	<p>*Please remember your email address and the password to login.</p>

Welcome to the Official website of the National Federation of Insurance Field Workers' of India .
National Federation of Insurance Field Workers of India (NFIFWI) is the sole representative organisation of around 21000 Development Officers of Life Insurance Corporation of India (LIC). Formed on 19th January 1957, NFIFWI is non political in nature and is one amongst the few organisations world over which has remained intact and completed 50 years of service as a trade union. Ever since its inception, NFIFWI has been contributing to the qualitative growth of LIC of India and insurance sector in India as a whole and has stood for the welfare of policy holders, agents and development officers.
